

Piston Replacement for the 2002 – 2005 Ford Explorer

GLOBAL PARTS DISTRIBUTORS, LLC

Tech Tip

The 2002–2005 Ford Explorer 4.0 V6 compressor is a commonly replaced compressors in the market. global parts distributors, llc (gpd) offers two options for this vehicle:

- gpd #6512987: Piston Replacement for the Scroll Compressor
- gpd #6511484: Scroll O.E. Style

#6512987

#6511484

The piston compressor is a direct bolt-off, bolt-on replacement for the scroll style compressor. gpd's piston design is more tolerable of debris left in the A/C system and performs better at lower RPMS than the O.E. scroll.

All gpd compressors come with the correct amount of oil for the A/C system. No matter which compressor is chosen for replacement, gpd strongly recommends that the condenser is replaced and the system is flushed.
