

2000–2007 Chevrolet Suburban/Tahoe/Yukon and GMC Denali Accumulator Options: 1411647, 1411734, and 1411648

gpd offers three accumulator options for 2000–2007 Chevrolet Suburban/ Tahoe/ Yukon and GMC Denali to suite different models.

- **gpd accumulator 1411647** is a replacement for the models without a rear A/C system. It can be identified by a peanut style fitting for the hose connection at the 12 o'clock position.
- **gpd accumulator 1411734** is a replacement for the 1st generation accumulator design (OEM 01132781). It can be identified by a block style fitting for the hose connection.

It is important to identify if the original accumulator is a 1st generation design vs. the 2nd generation design, 1411648. Although gpd accumulator 1411648 is suited for this model, it will require a new hose assembly if the original accumulator was a 1st generation design.

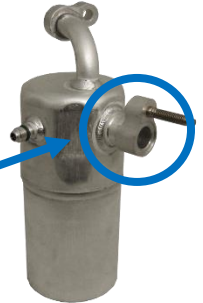

- **gpd accumulator 1411648** is a replacement for the 2nd generation accumulator design (OEM 01132786). It can be identified by a peanut style fitting for the hose connection at the 3 o'clock position.

Compatible cycle switch for all models: 1711456

Compatible pigtail (if required): 1711878

**Don't forget to reinsulate the accumulator after replacement to prevent "sweating", which reduces cooling efficiency.*

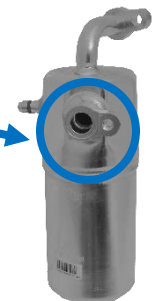

AC Delco replacement insulator: 15-10619

1411647 • 1st Design
Without Rear A/C

1411734 • 1st Design
With Rear A/C

1411648 • 2nd Design
With Rear A/C

gpd.
