

OEM Inline Filter Kit for Select 2001–2010 GM and Ford Expansion Valves Systems: 5811543

Select 2001–2010 GM and Ford A/C systems feature an expansion valve and inline filter. The inline filter is similar to an orifice tube in style and function. It features a filtering screen to prevent the spread of debris/ contaminants in the system. Like the orifice tube, the inline filter can get clogged with excess debris/contaminants. Failure to replace/clean a clogged inline filter can restrict oil flow to the compressor and damage the A/C system.

gpd OEM Inline Filter Kit, 5811543, contains 10 OEM inline filter replacements for popular GM and Ford systems (20 total components).

5811543 OEM Inline Filter Kit Components

Part No.	Applications	
3441234	2009–2010 Buick Enclave	2009–2010 GMC Acadia
